DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Wu on February 19, 2003.

Art Unit: 2839

3. The following is an examiner's statement of reasons for allowance: the prior art of record discloses many processes for aligning and connecting optical fibers to optical devices, including those that involve positioning a first end of an optical fiber proximate to an optical device and depositing a non-opaque material on the end of said optical device that fixes said optical fiber in place. The prior art of record does not disclose, teach, or otherwise render obvious, however, a process of aligning and connecting at least one optical fiber with an array of vertical cavity surface emitting lasers in combination with the other claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
